

# SHINE ON

RAYNAUD'S & SCLERODERMA

## The RSA's 2014 Annual Conference this year is being held at

**The Mercure, Abbots Well Hotel in Chester  
on Friday 5th and Saturday 6th of September**

This year's theme, SHINE ON, provides a 'spotlight' onto the conditions, giving you news about the latest research; some tips and techniques to help with self-management and gives you the chance to experience some treatments.

The conference is for all those who want to learn about Raynaud's and Scleroderma and offers YOU the opportunity to meet with others in a friendly, non-clinical environment. So, why not join us on 6th September in Chester, or make it a weekend break by joining us for dinner on Friday night, 5th September?

We are delighted to host internationally-renowned experts including Professor Chris Denton and Professor Jaap Van Laar and also have a series of engaging presentations and input from clinicians, specialist nurses and healthcare professionals experienced in the field.
